ONLINE

3 parties a week
plan for 5-6, but lets just use 3 guests
for this example. If 3 show up, you have
9 new customers in one week.

36 new customers per month, at year
end you would have a whopping 432!!!!

About the Money:

Average a \$200 party

\$600 a week/\$1200 a month profit

\$14,400 initial sales profit in a year

Reorder average \$30 every 3 months

Reorder Profit

\$25,920

Team Members:

Sharing with only half, 42 new team
members for the year

3 facials per week

3 new customers per week = 12 new per
month and 144 at year end.

About the Money:

Average \$75 facial

\$225 a week/\$450 a month profit

\$5,400 initial profit in the year

Reorder average of \$30 every 3 months

Reorder Profit

\$8,640

Team Members:

Recruiting average, 1 in 5 would give you
28 new members in the year

Same amount of time spent, HUGE difference in money earned! How will
you work it?
